

I chose English 1A because it is the most reasonable choice for me. I believe that for my major and looking at my four-year plan, English 1A suits me best. If I were to pick English Stretched, in my opinion, it would cause more damage in the future because I would have to take English 1B in my second year, which would mess up my four-year plan. This course will help me develop as a writer at SJSU by allowing me to write better. I am a good test taker when it comes to readings but not a good writer. This course should enable me to stop making awkward sentences and use proper writing structures.
